CERTIFICATION BULLETIN NO. 2005-08

To: Members of the Advisory Council of Underwriters' Laboratories of Canada
Listees of Protected Coating for Underground Steel Tanks (60 J20, DSNQC)
Others Interested

Subject: Withdrawal of ULC-S616-M1981, Standard for the Testing of Liquid Protective Coating Materials as Required by ULC-S603.1 for Use in Connection with the Corrosion Protection of Underground Tanks

The requirements for Protective Coating for Underground Steel Tanks have been revised and are now contained in Parts 1 and 4 of CAN/ULC-S603.1-03, External Corrosion Protection Systems for Steel Underground Tanks for Flammable and Combustible Liquids, depending on the coating type.

Effective June 30, 2006, ULC-S616-M1981 Standard will be withdrawn and products Listed to the Standard will also be withdrawn.

Current Listees who would like to continue to have their products Listed by ULC will be required to make application to have their product investigated to the new and revised requirements contained in CAN/ULC-S603.1-03. Application for investigation must be submitted no later than June 30, 2005, to ensure sufficient time for compliance should a complete test program be required.

Any questions concerning the above should be directed to Mr. Normand Breton, Chief Engineer – Canada, 416-757-3611 ext. 61238.
