CERTIFICATION BULLETIN NO. 2007-16

To: Listees of Equipment for Fire Signal Receiving Centers and Systems (3805 C0, 3805 C0M, UOJZC & 3821 R21, 3821 R21M, DAYRC)
Others Interested

Subject: First Edition of the Standard for Equipment for Fire Signal Receiving Centers and Systems, CAN/ULC-S559-04

This is further to our Certification Bulletin 2006-04 dated February 28, 2006 announcing the Industry File Review for the first edition of the Standard for Equipment for Fire Signal Receiving Centers and Systems.

As indicated in the previous Certification Bulletin, Underwriters' Laboratories of Canada has adopted the provisions of the first Edition of the Standard. All new submittals of the Fire Signal Receiving Centers and Systems will be investigated in accordance with the requirements.

The previous Certification Bulletin indicated that all existing listings are expected to comply with the new requirements by June 30, 2007. This Certification Bulletin serves is to advise you that we have revised the effective date to **December 30, 2008**. All existing product must be in investigated and found to be in full compliance prior to this date. Please note that in order to ensure completion of your project(s) we have established a cutoff date of September 28, 2007 to open these projects.

Any questions concerning the above should be directed to Mr. Normand Breton, Chief Engineer, at 416-757-3611 ext. 61238 or normand.breton@ca.ul.com.
