STANDARDS BULLETIN 2004-13

Errata to First Edition of CAN/ULC-S702.2-03

**MINERAL FIBRE THERMAL INSULATION FOR BUILDINGS,
PART 2: APPLICATION GUIDELINES**

ULC announces an Errata to the publication of the First Edition of CAN/ULC-S702.2-03, First Edition of Mineral Fibre Thermal Insulation for Buildings, Part 2: Application Guidelines.

This Standard has had two corrections.

1) Clause 7.2.3.1. The clause originally read:

"The *Applicator* shall provide the minimum thickness as indicated by the manufacturer in the *Application Chart*. The thickness may be greater than the specified thickness but under no circumstances shall it be lower."

The above clause has been adjusted to read:

"The *Applicator* shall provide the minimum thickness as indicated by the manufacturer in the *Application Chart*."

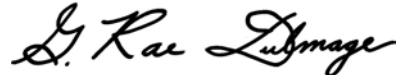

2) Tables A1 and A2 in Annex A have been reversed in order of presentation showing the mandatory (Class 2) table before the optional table (Class 1).

If you require any additional information, please contact Robert Long at 613-755-2729 Ext. 6227 or email: <mailto:Robert.Long@ca.ul.com>

This standard can be ordered for \$130.00 through our website at www.ulc.ca and selecting ULC Online Store. Once at the ULC Online Store select "New Standards Publications." After 30 days from the date of this letter the standard can be found by selecting "Standards".

Yours truly,
