STANDARDS BULLETIN 2005-18

Second Edition ULC-S631-05

ISOLATING BUSHINGS FOR STEEL UNDERGROUND TANKS PROTECTED WITH EXTERNAL CORROSION PROTECTION SYSTEMS

ULC is pleased to announce the publication of ULC-S631-05, Second Edition of the Standard for Isolating Bushings for Steel Underground Tanks Protected with External Corrosion Protection Systems. This Standard has been approved by the ULC Committee on Stationary Steel Storage Containers for Flammable and Combustible Liquids, and has been published with the date of July 2005.

These requirements cover low profile nylon isolating bushings with internal and external threads and component thread sealant which are intended for use in the external corrosion protection of underground steel tanks which have been installed in accordance with requirements contained in the standard for External Corrosion Protection Systems for Steel Underground Tanks for Flammable and Combustible Liquids, CAN/ULC-S603.1.

If you require any additional information, please contact Tess Gorospe at (416) 757-5250 Ext. 61212 or email to: Theresa.Gorospe@ca.ul.com.

This standard is available in both French and English can be ordered for \$120.00 from the ULC website (www.ulc.ca) ULC online store.

Yours truly,
