## STANDARDS BULLETIN 2007-30

---

### **Second Edition of CAN/ULC-S110-07 STANDARD METHODS OF TEST FOR AIR DUCTS**

---

ULC is pleased to announce the publication of the Second Edition of CAN/ULC-S110, Standard Methods of Test for Air Ducts. This Standard has been approved by the ULC Committee on Fire Tests, and has been published with the date of October 2007.

This Standard applies to materials for the fabrication of air duct systems for use in accordance with the requirements of the current edition of the National Building Code. The materials covered by CAN/ULC-S110 include preformed lengths of flexible or rigid ducts, materials in the form of boards for field fabrication of lengths of rigid ducts, and preformed flexible connectors.

Updates to this edition of CAN/ULC-S110 includes minor revisions and editorial changes.

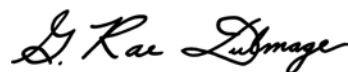

This Standard will be of interest to those involved in research and development of building construction materials, fire protection experts, engineers and architects, as well as builders and manufacturers.

Should you require any additional information, please contact Jennifer Jimenez at 613-755-2729 Ext. 6222 or email: [jennifer.jimenez@ca.ul.com](mailto:jennifer.jimenez@ca.ul.com).

This Standard can be ordered for \$150.00 through our website at [www.ulc.ca](http://www.ulc.ca) by clicking on Order Standards and Directories and then selecting ULC Online Store.

Yours truly,

UNDERWRITERS' LABORATORIES OF CANADA
