Dear Mr. Piechocki:

The Drinking Water Bureau of the New Mexico Environment Department (NMED-DWB) has received and reviewed your NELAP certification /accreditation information from the state of Florida. The documentation is acceptable and your New Mexico certification is now valid through June 30, 2012.

This certification is to perform drinking water analysis in compliance with the Federal Safe Drinking Water Act, pursuant to 40CFR Part 141, and the New Mexico Environment Department Drinking Water Regulations for the Primary Regulated contaminants. Your certification is approved for the following analytes: **please see attached list**

You must advise NMED-DWB of any change in your accreditation by the State of Florida and continue to provide this office with regular performance evaluation results as well as corrective action reports as necessary. You are also required to provide evidence of renewal of accreditation by the state of Florida to continue certification past June 30, 2012.

If you have any questions or require additional information, please contact me at 505-476-8648.

Sincerely,

Oneva Rivera
Lab Coordinator
