

▸ HAZLOC

Your Passport to the Global Market

Speed-to-market for your hazardous locations equipment can make or break your business success. UL's global family of HazLoc staff located across North America, Europe, Latin America and Asia can save you time and money with a single point of contact for your global certification needs.

Our global HazLoc family maintains expertise in all area classifications, protection methods and product categories — from intrinsically safe (IS) apparatus to explosion proof control stations to increased safety luminaires to Division 2 process equipment.

Whether your product is destined for a North Atlantic oil platform, a Brazilian petro-chemical facility, or any place in between, by working through one point of contact at UL, you gain certifications to sell your product worldwide.

This single point of contact provides you the following global market access certifications:

IECEX System

- IECEX Certification Body (ExCB) and IECEX Testing Laboratory (ExTL) with offices in both North America and Europe
- Issuing and accepting Certificates of Conformity (CoCs), Ex Test Reports (ExTRs) and Quality Assessment Reports (QARs) to facilitate national certifications across 28 countries

North America

- UL Mark for the United States through accreditation by OSHA
- C-UL Mark for Canada through accreditation by the Standards Council of Canada (SCC)

Europe — Accredited as a Notified Body under the ATEX Directive (94/9/EC) to issue:

- Production Quality Assurance Notifications (PQAN)
- EC-Type Examination Certificates

Latin America — Accredited by INMETRO as a Brazilian Certification Organization (CO) to issue:

- INMETRO mark and certificates
- Quality assessments

Asia-Pacific

- Market access also facilitated by use of the following:
 - IECEX System,
 - UL Mark and
 - UL's data exchange agreements and relationships with local HazLoc testing and certification organizations

Save time and money with a single point of contact for your global certification needs.
