Your Passport to the Global Market

HAZLoc

Speed-to-market for your hazardous locations equipment can make or break your business success. UL's family of HazLoc staff located globally at our Northbrook, Ill., office, at the UL International Demko A/S office in Europe, and at the UL do Brasil office in Latin America can save you time and money with a single point of contact for your global certification needs.

Single point of contact for global service

Our HazLoc family maintains expertise in all area classifications, protection methods and product categories – from intrinsically safe apparatus to explosion proof control stations to increased safety luminaires to Division 2 process equipment.

Whether your product is destined for a North Atlantic oil platform, a Brazilian petro-chemical facility, or any place in between, by working through one point of contact at UL, you gain certifications to sell your product worldwide.

This single point of contact provides you the following global certifications:

IECEx Scheme

- *First and only* Accepted Certification Body (ACB) and Ex Assessment and Testing Laboratory (ExTL) with offices in both North America and Europe
- Currently issuing and accepting Assessment and Test Reports (ATRs) used for national certifications in 22 countries

North America

- UL Mark for the United States through accreditation by OSHA
- C-UL Mark for Canada through accreditation by the Standards Council of Canada (SCC)

Europe – Accredited as a Notified Body under the ATEX Directive (94/9/EC) to issue:

- Production Quality Assurance Notifications
- EC-Type Examination in support of the CE and “Epsilon-X” marks

(continued)

*Save time and money
with a single point of
contact for your global
certification needs.*

To get started today, please call UL Customer Service at 1-877-854-3577.

Latin America – Accredited by INMETRO as a Brazilian Certification Organization to issue:

- INMETRO mark and certificates
- Quality assessments

Asia

- *First and only* North American and European “Designated Foreign Testing Body” accredited by the Japanese Ministry of Health, Labour and Welfare
- Chinese HazLoc certificates through data exchange agreements and relationships with CQST and NEPSI in China

Australia

- Approvals gained through work with Australian testing and certification agencies

Commonwealth of Independent States

- GOST R approvals gained through our relationship with VNIIFTRI in Russia
- GOST R and UkrSEPRO approvals gained through our relationship with TCCEXEE in the Ukraine
