

# Resources for Code Authorities

## Ten tips to more effectively utilize UL online resources

### Tip 1 Code Authorities Home Page

The UL.com Code Authorities home page ([www.ul.com/codeauthorities](http://www.ul.com/codeauthorities)) is the gateway to the OCD, CCD and other important information related to the built environment. Bookmark it today!

### Tip 2 Online Certifications Directory

Use this database ([www.ul.com/database](http://www.ul.com/database)) to locate UL Certified products, companies, and general information on the applications for which products are certified.

### Tip 3 Use the Code Correlation Database to resolve compliance issues.

This database ([www.ul.com/codelink/](http://www.ul.com/codelink/)) allows you to correlate model code requirements with corresponding UL certifications. It's simple to use, just enter the code edition and section in question and Search!

### Tip 4 Sustainable Product Database

Use UL Environment's Sustainable Product Database ([www.ul.com/environment](http://www.ul.com/environment)) to find products that meet sustainable requirements in green building codes and standards.

### Tip 5 ULtimate Fire Wizard

This tool ([www.ul.com/firewizard](http://www.ul.com/firewizard)) allows you to find fire-resistance-rated designs based on hourly rating, design type, materials used and keywords.

### Tip 6 Get LinkedIn® to the UL Codes and Technical Services Group

Join our Regulatory Services discussion group at [www.linkedin.com](http://www.linkedin.com) by searching "Groups" for "UL Codes".

### Tip 7 Subscribe to UL Newsletters and ULtimate Email Service

Sign up for a free subscription to our complementary newsletters and email notification service by following the links on [www.ul.com/tca](http://www.ul.com/tca).

### Tip 8 Fire Service Research

Access the latest in fire service related research initiatives and free training at [www.ul.com/fireservice](http://www.ul.com/fireservice).

### Tip 9 UL's Architectural Services

We provide information and an architect hotline that can help you design and build safe, code compliant installations. See [www.ul.com/architects](http://www.ul.com/architects).

### Tip 10 Interactive UL White Book

Download the latest UL White Book at [www.ul.com/whitebook](http://www.ul.com/whitebook). This online edition provides interactive content that will help you enforce National Electrical Code requirements.

UL has a wealth of online tools to help code authorities find the information they need.
