|-------------|-------------|------------------------------------|--|----------------|---------|---|
| | | | | | | with scaffolds;Recognize when scaffold work conditions are unsafe;Know what to do if you recognize potentially unsafe scaffold conditions |
| New | PS5-103611 | Bloodborne Pathogens (BBP) (Dutch) | First Aid, Health and Wellness;Chemicals, Substances and Hazard Communication;General Industry and Manufacturing | Safety Catalog | n/a | If your job duties include even occasional contact with blood or other infectious materials, you are at risk for contracting potentially deadly, incurable diseases. Take this course to learn what bloodborne pathogens are and how you can protect yourself from them. Ideal learners include anyone who may be exposed to blood or other potentially infectious materials, including healthcare workers, custodians, maintenance staff, research personnel and construction workers. |
| New | PS5-103669 | Forklift Awareness (Dutch) | Warehouse Safety;Awareness and Microlearning;General Industry and Manufacturing | Safety Catalog | n/a | Powered industrial trucks like forklifts are used every day to lift and move equipment or materials. Because of the high risk of |

| Update type | Course code | Course title | Industry | Course library | Version | Update details |
|-------------|-------------|-----------------------------|---|----------------|---------|---|
| | | | | | | injury and even death while operating a powered industrial truck, some use and training recommendations have been developed to improve safety. This training is ideal for all workers who operate or supervise the operation of forklifts. |
| New | PS5-103670 | Forklift Awareness (French) | Warehouse Safety;Awareness and Microlearning;General Industry and Manufacturing | Safety Catalog | n/a | Powered industrial trucks like forklifts are used every day to lift and move equipment or materials. Because of the high risk of injury and even death while operating a powered industrial truck, some use and training recommendations have been developed to improve safety. This training is ideal for all workers who operate or supervise the operation of forklifts. |
| New | PS5-103671 | Forklift Awareness (German) | Warehouse Safety;Awareness and Microlearning;General Industry and Manufacturing | Safety Catalog | n/a | Powered industrial trucks like forklifts are used every day to lift and move equipment or materials. Because of the high risk of injury and even death while |

| | | | | | | industrial truck, some use and training recommendations have been developed to improve safety. This training is ideal for all workers who operate or supervise the operation of forklifts. |
| New | PS5-103702 | Pallet Truck Safety (Chinese) | Warehouse Safety;General Industry and Manufacturing | Safety Catalog | n/a | Operating a pallet jack or pallet truck is different from operating a forklift or other industrial truck. Take this course to learn how you can help eliminate or reduce injuries and incidents associated with this equipment. This course will give you the basic information you need to inspect and safely operate pallet trucks in a variety of situations. Ideal learners are all employees who operate or supervise the operation of pallet trucks in industrial settings. |
| New | PS5-103703 | Pallet Truck Safety (Dutch) | Warehouse Safety;General Industry and Manufacturing | Safety Catalog | n/a | Operating a pallet jack or pallet truck is different from operating a forklift or other industrial truck. Take this course to learn how you |

|-------------|-------------|----------------------------------|--|----------------|---------|---|
| New | PS5-103707 | Pallet Truck Safety (Portuguese) | Warehouse Safety;General Industry and Manufacturing | Safety Catalog | n/a | Operating a pallet jack or pallet truck is different from operating a forklift or other industrial truck. Take this course to learn how you can help eliminate or reduce injuries and incidents associated with this equipment. This course will give you the basic information you need to inspect and safely operate pallet trucks in a variety of situations. Ideal learners are all employees who operate or supervise the operation of pallet trucks in industrial settings. |
| New | PS5-103623 | Lab Safety (Dutch) | Chemicals, Substances and Hazard Communication;General Industry and Manufacturing;Health and Safety Management;Laboratory Safety | Safety Catalog | n/a | A laboratory safety program depends on participation and cooperation from every employee. This course describes common hazards associated with laboratory environments and introduces ways to control and limit chemical exposure. Ideal learners are any employees who work in a laboratory environment. |

| Update type | Course code | Course title | Industry | Course library | Version | Update details |
|-------------|-------------|---------------------|--|----------------|---------|---|
| New | PS5-103624 | Lab Safety (French) | Chemicals, Substances and Hazard Communication;General Industry and Manufacturing;Health and Safety Management;Laboratory Safety | Safety Catalog | n/a | A laboratory safety program depends on participation and cooperation from every employee. This course describes common hazards associated with laboratory environments and introduces ways to control and limit chemical exposure. Ideal learners are any employees who work in a laboratory environment. |
| New | PS5-103625 | Lab Safety (German) | Chemicals, Substances and Hazard Communication;General Industry and Manufacturing;Health and Safety Management;Laboratory Safety | Safety Catalog | n/a | A laboratory safety program depends on participation and cooperation from every employee. This course describes common hazards associated with laboratory environments and introduces ways to control and limit chemical exposure. Ideal learners are any employees who work in a laboratory environment. |
| New | PS5-103615 | Fire Watch (French) | Wind Turbine;Hot Work, Fire Watch and Welding;Fire Extinguisher, Prevention and Egress;General Industry and Manufacturing | Safety Catalog | n/a | Every year, many workplace fires occur as a result of hot work including cutting, welding and other work that generates heat and |

| Update type | Course code | Course title | Industry | Course library | Version | Update details |
|-------------|-------------|---|---|----------------|---------|--|
| | | | | | | <p>sparks. Hot work is often being done without an adequate fire watch in place. Most, if not all, hot work incidents are completely preventable. A fire watch, conducted properly, is one of the most important ways to keep workers safe during hot work and prevent damage and destruction to property. This course covers the role and responsibilities of the fire watcher. Ideal learners are all employees.</p> |
| New | BDL-12138 | Crane Safety and Basic Rigging Training Suite (Spanish) (IACET CEU=0.2) | Wind Turbine;Crane and Rigging;General Industry and Manufacturing | Safety Catalog | n/a | <p>Rigging is the process of moving heavy load with slings, chains, hoists and other special tools. The equipment used for lifting and moving loads is also called rigging. Cranes can be very dangerous when used in an unsafe manner. It is the signal person that provides instructions to the crane operator and it is vital that the crane operator follow the signal person's instructions. Both of these</p> |

| Update type | Course code | Course title | Industry | Course library | Version | Update details |
|-------------|-------------|---|--|----------------|---------|---|
| | | | | | | individuals play an important role in the overall safety of crane operation. The Crane Signaling Awareness course covers basic skills and knowledge needed to use hand or voice signals to direct the movements of mobile and tower cranes. In addition, guidelines for using voice signals are provided. |
| New | PS5-103677 | DOT Vehicle and Roadside Inspections (US) (Spanish) | Driver and Transportation Safety | Safety Catalog | n/a | This course educates commercial big-rig truck drivers and other personnel at trucking companies about the importance of vehicle and roadside inspections. This course will provide information about the items for which drivers or enforcement officers will check during an inspection. |
| New | PS5-30148 | Asbestos Hazards Suite (US) | Chemicals, Substances, and Hazard Communication;Construction;Employment Liability;Environmental;First Aid, Health and Wellness;General Industry and Manufacturing;Health and Safety Management;Hot Work, Fire Watch and Welding;Laboratory Safety;Property | 0 | n/a | Asbestos can be deadly without proper controls and release procedures. In this suite, you will learn how to identify and avoid asbestos as well as how to control your exposure to it. |

| Update type | Course code | Course title | Industry | Course library | Version | Update details |
|-------------|-------------|---|---|----------------|---------|--|
| | | | Management/Real Estate;Contractor Safety | | | This suite is ideal for people who work in the United States in environments that contain or have the potential to contain asbestos as well as their supervisors. |
| New | BDL-30148 | Asbestos Hazards Suite (US) (IACET CEU=0.1) | Chemicals, Substances, and Hazard Communication;Construction;Employment Liability;Environmental;First Aid, Health and Wellness;General Industry and Manufacturing;Health and Safety Management;Hot Work, Fire Watch and Welding;Laboratory Safety;Property Management/Real Estate;Contractor Safety | 0 | n/a | Asbestos can be deadly without proper controls and release procedures. In this suite, you will learn how to identify and avoid asbestos as well as how to control your exposure to it. This suite is ideal for people who work in the United States in environments that contain or have the potential to contain asbestos as well as their supervisors. |
| New | PS5-30149 | Asbestos Hazards Suite | Chemicals, Substances, and Hazard Communication;Construction;Employment Liability;Environmental;First Aid, Health and Wellness;General Industry and Manufacturing;Health and Safety Management;Hot Work, Fire Watch and Welding;Laboratory Safety;Property Management/Real Estate;Contractor Safety | 0 | n/a | Asbestos can be deadly without proper controls and release procedures. In this suite, you will learn how to identify and avoid asbestos as well as how to control your exposure to it. This suite is ideal for people who work in the United States in environments that |

|-------------|-------------|---|---|----------------|---------|---|
| | | | | | | asbestos as well as their supervisors. |
| New | PS5-102986 | Asbestos Hazards: Workers in the United States (US) | Chemicals, Substances, and Hazard Communication;Construction;Employment Liability;Environmental;First Aid, Health and Wellness;General Industry and Manufacturing;Health and Safety Management;Hot Work, Fire Watch and Welding;Laboratory Safety;Property Management/Real Estate;Contractor Safety | Safety Catalog | n/a | Managing exposure to asbestos is so important that the government regulates how to keep workers safe. Take this course to learn about the medical and training requirements for asbestos work in the United States that will help you work safely and remain healthy. This course is ideal for people who work in environments that contain or have the potential to contain asbestos as well as their supervisors. |
| New | PS5-103486 | Asbestos Hazards: Products and Types | Chemicals, Substances, and Hazard Communication;Construction;Employment Liability;Environmental;First Aid, Health and Wellness;General Industry and Manufacturing;Health and Safety Management;Hot Work, Fire Watch and Welding;Laboratory Safety;Property Management/Real Estate;Contractor Safety | Safety Catalog | n/a | Do you know where you are most likely to encounter asbestos at work? Take this course to learn about the types of asbestos, the locations and products to watch out for, and the signs that they are damaged or deteriorating. Workers need to know where asbestos is so that they can avoid and control it. This |

| Update type | Course code | Course title | Industry | Course library | Version | Update details |
|-------------|-------------|---|---|----------------|---------|---|
| | | | | | | course is ideal for people who work in environments that contain or have the potential to contain asbestos as well as their supervisors. |
| New | PS5-103487 | Asbestos Hazards: Signs, Areas and Monitoring | Chemicals, Substances, and Hazard Communication;Construction;Employment Liability;Environmental;First Aid, Health and Wellness;General Industry and Manufacturing;Health and Safety Management;Hot Work, Fire Watch and Welding;Laboratory Safety;Property Management/Real Estate;Contractor Safety | Safety Catalog | n/a | Knowing when asbestos is present helps you determine what to do to work safely around it. In this course, you will learn about regulated asbestos areas, signage, labels and monitoring. This information will help you make informed, safe decisions to avoid asbestos exposure. This course is ideal for people who work in environments that contain or have the potential to contain asbestos as well as their supervisors. |
| New | PS5-103488 | Asbestos Hazards: Avoiding Exposure | Chemicals, Substances, and Hazard Communication;Construction;Employment Liability;Environmental;First Aid, Health and Wellness;General Industry and Manufacturing;Health and Safety Management;Hot Work, Fire Watch and Welding;Laboratory Safety;Property | Safety Catalog | n/a | Asbestos can cause serious health conditions, including cancer. That is why it is so important that workers control their exposure to it. In this course, you will learn about the controls you can |

| Update type | Course code | Course title | Industry | Course library | Version | Update details |
|-------------|-------------|--|---|----------------|---------|---|
| | | | Management/Real Estate;Contractor Safety | | | use to avoid being exposed to asbestos fibers, including ventilation, work practices and personal protective equipment, or PPE. This course is ideal for people who work in hazardous environments that contain or have the potential to contain asbestos as well as their supervisors. |
| New | PS5-103489 | Asbestos Hazards: Release Response | Chemicals, Substances, and Hazard Communication;Construction;Employment Liability;Environmental;First Aid, Health and Wellness;General Industry and Manufacturing;Health and Safety Management;Hot Work, Fire Watch and Welding;Laboratory Safety;Property Management/Real Estate;Contractor Safety | Safety Catalog | n/a | If there was an asbestos fiber release in your work area, would you know what to do? Take this course to learn the actions you should take as well as what first aid to administer to people who may have been exposed to asbestos. This course is ideal for people who work in hazardous environments that contain or have the potential to contain asbestos as well as their supervisors. |

| | | | | | | managers. |
| New | PS5-103680 | Egress and Emergency Action Plans (French) | Wind Turbine;Fire Extinguisher, Prevention and Egress;Ergonomics and Office Safety;Chemicals, Substances and Hazard Communication;General Industry and Manufacturing | Safety Catalog | N/A | Fires injure or kill thousands of workers annually. Those are the losses due to fires, but there are other hazardous situations that can threaten the life and health of a worker. These situations include severe weather, medical emergencies, chemical releases, and bomb threats. We cannot completely eliminate dangerous workplace situations, but we can reduce the number of associated injuries and deaths. This course will focus on two important aspects of this effort. Ideal learners are all employees. |

| | | Conditions (US) | | | | includes every adverse weather condition that could cause a hazardous driving situation, such as rain, snow, ice, fog, or extremely cold or hot weather. The purpose of this training is to show drivers how to handle extreme weather conditions on the road so they can stay safe in rain, snow or shine. Ideal learners are all employees. |
| New | PS5-103690 | Lithium-Ion Battery Awareness (Spanish) | Working from Home/Remote;Warehouse Safety;Tools;Chemicals, Substances and Hazard Communication;General Industry and Manufacturing;Health and Safety Management;General Industry and Manufacturing | Safety Catalog | N/A | Lithium-ion batteries, like the ones that power your portable electronics, are finding favor over traditional lead-acid batteries. These batteries offer many advantages but pose huge risks if not handled correctly. Take this course to make yourself aware of how to safely use lithium-ion batteries on and off the job. This course is ideal for everyone and all industries. |
| New | PS5-103691 | Load Securement for Heavy Equipment (US) (Spanish) | Driver and Transportation Safety;Crane and Rigging;Construction | Safety Catalog | N/A | The North American Cargo Securement Standard forms the basis for the cargo securement and distribution |

| Update type | Course code | Course title | Industry | Course library | Version | Update details |
|-------------|-------------|------------------------------------|--|----------------|---------|--|
| | | | | | | regulations in the United States and Canada. The regulations are designed to ensure cargo stays in place, keeping drivers and other motorists safe. This training covers the regulations and best practices for loading, securing and unloading heavy equipment. Ideal learners are equipment operators and drivers who load, unload and transport heavy equipment. |
| New | PS5-103692 | Fall Protection: Rescues (Spanish) | Wind Turbine;Slips, Trips and Falls;General Industry and Manufacturing | Safety Catalog | N/A | A worker falls, but his personal fall arrest system stops his descent. Now the worker is suspended in midair and screaming for help. What do you do? This can be a chilling moment if you do not have a plan. This course highlights common considerations in fall protection rescue planning and provides advice for reducing post-fall suspension trauma. It is ideal for workers, supervisors and managers. |
| New | PS5-103693 | Basic Rigging Principles, Part 1: | Construction;Crane and Rigging;General Industry and | Safety Catalog | N/A | Rigging is a process used to secure materials to be moved |

| Update type | Course code | Course title | Industry | Course library | Version | Update details |
|-------------|-------------|--|--|----------------|---------|--|
| | | Hazards and Risks (Spanish) | Manufacturing;Oil and Gas;Tools;Wind Turbine | | | by cranes, hoists or other lifting equipment. Heavy materials and moving parts have many associated risks of which you must be aware. Take this course to learn more about rigging and its potential hazards. This course is ideal for construction and general industry workers who may be involved in rigging activities, as well as their supervisors. |
| New | PS5-103694 | Basic Rigging Principles, Part 2: General Safety (Spanish) | Construction;Crane and Rigging;General Industry and Manufacturing;Oil and Gas;Tools;Wind Turbine | Safety Catalog | N/A | Safe rigging practices are vital to ensuring the safety of your worksite. Take this course to learn about basic rigging safe practices including the process, preparing for the job, and how to inspect and store equipment. This course is ideal for construction and general industry workers who may be involved in rigging activities, as well as their supervisors. |
| New | PS5-103695 | Basic Rigging Principles, Part 3: Rigging Equipment | Construction;Crane and Rigging;General Industry and Manufacturing;Oil and Gas;Tools;Wind Turbine | Safety Catalog | N/A | Choosing the right rigging equipment is vital to the safety of your worksite. Take this course to learn about the |

| | | (Spanish) | | | | types of rigging equipment, including slings, connectors and adjusters. This course is ideal for construction and general industry workers who may be involved in rigging activities as well as their supervisors. |
| New | PS5-103708 | Latex Allergy Awareness (Spanish) | Hot Work, Fire Watch and Welding;Chemicals, Substances and Hazard Communication;General Industry and Manufacturing;Health and Safety Management;General Industry and Manufacturing;Construction | Safety Catalog | N/A | Many workers routinely use latex products in their everyday work. Even people who have never had a reaction before could begin to develop symptoms. By reducing your exposure to latex and detecting latex allergy symptoms early, you can prevent long-term health effects. Take this course to learn what natural rubber latex is, where you may find it and how to recognize reactions to it. This course is ideal for all learners. |
| New | PS5-103710 | Lone Worker: Risk Assessment (Spanish) | Construction;Driver and Transportation Safety;General Industry and Manufacturing;Hi-tech/Semiconductor Safety;Healthcare;Wind Turbine;Working from Home/Remote;Workplace | Safety Catalog | N/A | Preparation is the key to performing lone work safely. Take this course to learn about lone worker risks and factors to consider when planning for lone work activities. You will learn about |

| Update type | Course code | Course title | Industry | Course library | Version | Update details |
|-------------|-------------|---------------------------------|---|----------------|---------|--|
| | | | Violence and Harassment;Health and Safety Management | | | considerations unique to your task and location, personal requirements and key safety precautions like monitoring lone worker safety by using check-ins. This course is ideal for everyone who may perform or supervise someone who performs lone work. |
| New | PS5-103711 | Lone Worker: Concerns (Spanish) | Construction;Driver and Transportation Safety;General Industry and Manufacturing;Hi-tech/Semiconductor Safety;Healthcare;Wind Turbine;Working from Home/Remote;Workplace Violence and Harassment;Health and Safety Management | Safety Catalog | N/A | Do you know what to expect when you are working alone or isolated from others? Take this course to learn what lone work is and about some of its common risks. This course is ideal for everyone who may perform or supervise someone who performs lone work. |
| New | PS5-103719 | Blocking and Cribbing (Spanish) | Crane and Rigging;Construction | Safety Catalog | N/A | A lot of work requires the use of lifting tools such as hydraulic jacks, cranes and truck hoists. Because these lifting tools are used so frequently and are usually reliable, you may forget that any lifting tool can potentially fail. However, if you happened to be under a load during such a failure, |

| | | | | | | do to avoid them. This course is ideal for people who use pneumatic tools or supervise those who do. |
| *New | PS5-103674 | Corrosive Safety (Spanish) | Chemicals, Substances and Hazard Communication | Safety Catalog | N/A | You may know that corrosive materials can be hazardous to your skin and eyes, but are you aware of their other hazards? Corrosives (acids and bases) are materials that can cause chemical damage on contact with the skin, eyes, respiratory tract, digestive tract or even metal. Many chemicals commonly used in laboratories and the home are corrosive. Besides their health hazards, corrosives can be highly reactive. They can cause fires, explosions, or violent exothermic (heat-releasing) reactions, like an explosion. Take this training to learn how to safely identify, use and store corrosive materials, as well as methods for preventing and responding to exposure incidents and emergencies. This training is beneficial for anyone who has the potential to use or be near the use of corrosives. |
| *New | PS5-103675 | Egress and Emergency | Working from Home/Remote;Wind Turbine;Fire Extinguisher, Prevention | Safety Catalog | N/A | Fires, severe weather, medical emergencies, chemical releases, |

| | | Action Plans Awareness (Spanish) | and Egress;Ergonomics and Office Safety;Awareness and Microlearning;Chemicals, Substances and Hazard Communication;General Industry and Manufacturing | | | bomb threats and other emergencies can threaten the entire workforce. We cannot completely eliminate dangerous workplace situations, but we can reduce the harm they cause. This course will focus on two important aspects of this effort: egress and emergency action plans. Ideal learners are all employees. |
| *New | PS5-103676 | OSHA 300 Recordkeeping Requirements (US) (Spanish) | General Industry and Manufacturing;Health and Industry Management | Safety Catalog | N/A | OSHA has a set of rules for recordkeeping. 29 CFR 1904 requires employers to record certain work-related injuries and illnesses. The rules also require that employers notify OSHA of severe incidents, such as fatalities. This training summarizes the key provisions of this rule, including explanations of OSHA forms 300, 301 and 300A. Ideal learners are managers and employers. |
| *New | PS5-103679 | Hydraulic Safety (Spanish) | Warehouse Safety;Electrical and LOTO;Crane and Rigging;General Industry and Manufacturing | Safety Catalog | N/A | Hydraulic systems are extraordinarily powerful. They can lift and crush cars, houses and giant boulders. That kind of force requires strict safety measures to keep people who work on or near hydraulic systems safe. Take this course so that you will be aware of the hazards and ways to prevent |

August 2022 Course Updates

| Update type | Course code | Course title | Industry | Course library | Version | Update details |
|-------------|-------------|---|----------|----------------|---------|---|
| *New | BDL-30139 | Basic Rigging Principles, Parts 1-3 (IACET CEU=0.1) | n/a | n/a | N/A | Rigging is a process used to secure materials to be moved by cranes, hoists or other lifting equipment. It is important for everyone involved with rigging activities to be aware of its associated risks, how to work safely and how to prevent equipment failure. Take these courses to learn about the basic principles of rigging that we all need to follow to keep our worksites safe. This suite is ideal for construction and general industry workers who may be involved in rigging activities as well as their supervisors. It lays the foundation for in-depth and on-the-job training for riggers. |
| *New | HFE01 | Introduction to Human Factors Engineering | n/a | n/a | 1.0 | This is an introductory course about human factors engineering. HFE plays an important role in our world keeping users safe and healthy by applying a user-centered design process to the development of products. The discipline has evolved a great deal over the past 100 |

| Update type | Course code | Course title | Industry | Course library | Version | Update details |
|-------------|-------------|---|--|--|---------|--|
| | | | | | | years in all industries. This course explores that history and specifically how HFE has played a role in the medical device industry. |
| *New | PHA83 | Industry 4.0 for Pharmaceutical Manufacturing | Pharmaceutical | "Pharmaceutical Catalog Pharmaceutical GMPs Library" | 1.0 | This course describes the impact the disruptive technologies of Pharma 4.0™ are having on the pharmaceutical industry. Topics in this course include: History, Disruptive Technologies, Pharmaceutical Applications, and The Future. After completing this course, learners will be able to recognize historical events that led to Pharma 4.0™. Learners will also be able to identify different types of disruptive technologies and their impact on pharmaceutical development, production, and distribution. |
| *New | PS5-102988 | Basic Rigging Principles, Part 1: Hazards and Risks | Construction;Crane and Rigging;General Industry and Manufacturing;Oil and Gas;Tools;Wind Turbine | Safety Catalog | N/A | Rigging is a process used to secure materials to be moved by cranes, hoists or other lifting equipment. Heavy materials and moving parts have many associated risks of which you must be aware. |

| Update type | Course code | Course title | Industry | Course library | Version | Update details |
|-------------|-------------|---|--|----------------|---------|--|
| | | | | | | Take this course to learn more about rigging and its potential hazards. This course is ideal for construction and general industry workers who may be involved in rigging activities, as well as their supervisors. |
| *New | PS5-103450 | Basic Rigging Principles, Part 2: General Safety | Construction;Crane and Rigging;General Industry and Manufacturing;Oil and Gas;Tools;Wind Turbine | Safety Catalog | N/A | Safe rigging practices are vital to ensuring the safety of your worksite. Take this course to learn about basic rigging safe practices including the process, preparing for the job, and how to inspect and store equipment. This course is ideal for construction and general industry workers who may be involved in rigging activities, as well as their supervisors. |
| *New | PS5-103451 | Basic Rigging Principles, Part 3: Rigging Equipment | Construction;Crane and Rigging;General Industry and Manufacturing;Oil and Gas;Tools;Wind Turbine | Safety Catalog | N/A | Choosing the right rigging equipment is vital to the safety of your worksite. Take this course to learn about the types of rigging equipment, including slings, connectors and adjusters. This course is ideal for construction and general industry workers who may be involved in rigging |

| *New | PS5-103525 | Culture of Early Reporting (Canadian French) | Management Skills;Health and Safety Management | Safety Catalog | N/A | The more people involved in company safety efforts, the better! Take this course to learn how you and your company can create a culture of early reporting to improve safety performance. Ideal learners are managers, supervisors and safety committee members. |
| *New | PS5-103613 | Electrical Safety and Lockout/Tagout (LOTO) (Spanish) | Wind Turbine;Electrical and LOTO;General Industry and Manufacturing | Safety Catalog | N/A | Working with electricity can be dangerous. Workers performing service or maintenance on machinery and equipment may be injured by the unexpected startup of the machinery or equipment, or release of stored electrical energy in the equipment. In fact, failure to lock out machinery before working on it is a major cause of injury and death. These deaths and injuries can be prevented by establishing and following an effective lockout/tagout program. This training will tell you more |

| Update type | Course code | Course title | Industry | Course library | Version | Update details |
|-------------|-------------|---------------------------------------|--|----------------|---------|---|
| | | | | | | about electrical hazards, safe practices when working with electricity, and the lockout/tagout program and how it can save your life. Ideal learners are any employee who works on or around electrical machinery. |
| *New | PS5-30131 | Machine Guarding, Parts 1-2 (Chinese) | Wind Turbine;Warehouse Safety;Electrical and LOTO;Tools;General Industry and Manufacturing | Safety Catalog | N/A | Part of your job is to work with or around machines. These machines have moving parts and power sources that can be dangerous. Fortunately, there are machine guards that will help protect you from hazards. These courses will help you better understand machine hazards and how they are guarded. They are an excellent foundation for the training your employer will provide about the specific hazards and controls in your workplace. Ideal learners are workers who operate, maintain or work near machines. |

| New | PS5-103517 | Machine Guarding Part 2: Precautions (Canadian French) | Wind Turbine;Warehouse Safety;Electrical and LOTO;Tools;General Industry and Manufacturing | Safety Catalog | N/A | Part of your job is to work with or around machines. These machines have moving parts and power sources that can be dangerous. Fortunately, there are machine guards that will help protect you from hazards. These courses will help you better understand machine hazards and how they are guarded. They are an excellent foundation for the training your employer will provide about the specific hazards and controls in your workplace. Ideal learners are workers who operate, maintain or work near machines. |
| New | PS5-103521 | Machine Guarding Part 2: Precautions (German) | Wind Turbine;Warehouse Safety;Electrical and LOTO;Tools;General Industry and Manufacturing | Safety Catalog | N/A | Part of your job is to work with or around machines. They are an excellent foundation for the training your employer will provide about the specific hazards and controls in your workplace. Ideal learners are workers who operate, maintain or work near machines. |
| New | PS5-103524 | Scaffold Safety Essentials (Canadian French) | Slips, Trips and Falls;Awareness and Microlearning;Construction | Safety Catalog | N/A | Identify types of scaffolds and their associated characteristics;Recognize the general hazards associated with scaffolds;Know the role of the competent person as it relates to scaffolding;Know how scaffolds are made safe by design, during assembly and through proper use and maintenance;Recall safety strategies, protective measures and employer |

| Update type | Course code | Course title | Industry | Course library | Version | Update details |
|-------------|-------------|---|---|----------------|---------|---|
| | | | | | | requirements associated with scaffolds;Recognize when scaffold work conditions are unsafe;Know what to do if you recognize potentially unsafe scaffold conditions |
| New | PS5-103531 | Scaffold Safety Essentials (Portuguese) | Slips, Trips and Falls;Awareness and Microlearning;Construction | Safety Catalog | N/A | Identify types of scaffolds and their associated characteristics;Recognize the general hazards associated with scaffolds;Know the role of the competent person as it relates to scaffolding;Know how scaffolds are made safe by design, during assembly and through proper use and maintenance;Recall safety strategies, protective measures and employer requirements associated with scaffolds;Recognize when scaffold work conditions are unsafe;Know what to do if you recognize potentially unsafe scaffold conditions |
| New | PS5-103534 | Powered Industrial Trucks Part 1: Classes and Types (Canadian French) | Warehouse Safety;General Industry and Manufacturing | Safety Catalog | N/A | Your job requires you to work with or around powered industrial trucks. What are they and what do you need to know about the different types? Take this course to learn the answers to these questions. This course is |

| Update type | Course code | Course title | Industry | Course library | Version | Update details |
|-------------|-------------|--|---|----------------|---------|---|
| | | | | | | ideal for people who operate powered industrial trucks or those who manage them. |
| New | PS5-103541 | Powered Industrial Trucks Part 2: Pre-Operation Inspection (Canadian French) | Warehouse Safety;General Industry and Manufacturing | Safety Catalog | N/A | Powered industrial truck safety begins before the truck is even in motion. This course will teach you how to visually inspect trucks to ensure they will function safely. This course is ideal for people who operate powered industrial trucks or those who manage them. |
| New | PS5-103548 | Powered Industrial Trucks Part 3: Operational Inspection and Maintenance (Canadian French) | Warehouse Safety;General Industry and Manufacturing | Safety Catalog | N/A | Before you use a powered industrial truck, you need to make sure it operates safely and as expected. This course will teach you what is included in an operational inspection and will also help you understand the importance of preventive maintenance. This course is ideal for people who operate powered industrial trucks or those who manage them. |
| New | PS5-103556 | Powered Industrial Trucks Part 4: Fueling and Charging (Canadian French) | Warehouse Safety;General Industry and Manufacturing | Safety Catalog | N/A | Keeping an adequate power supply for a powered industrial truck is vital to its safe operation. Take this course to learn more about how to safely fuel and charge trucks. This course is |

| Update type | Course code | Course title | Industry | Course library | Version | Update details |
|-------------|-------------|--|---|----------------|---------|--|
| | | | | | | ideal for people who operate powered industrial trucks or those who manage them. |
| New | PS5-103590 | Powered Industrial Trucks Part 5: Preventing Incidents (Canadian French) | Warehouse Safety;General Industry and Manufacturing | Safety Catalog | N/A | Powered industrial truck operators can prevent incidents like tip-overs, collisions and lost loads by monitoring and avoiding factors that affect truck stability and the general safety of their work area. Take this course to learn how loading, capacity, obstructions, speed, braking, turning and surface conditions affect truck operation. This course is ideal for people who operate powered industrial trucks or those who manage them. |
| New | PS5-103597 | Powered Industrial Trucks Part 6: Picking Up and Placing Loads (Canadian French) | Warehouse Safety;General Industry and Manufacturing | Safety Catalog | N/A | By properly picking up, handling and placing loads, powered industrial truck operators can help avoid dangerous conditions such as overloaded equipment, damaged racks and loads that fall or are damaged. Take this course to learn the general safe practices for using trucks to pick up and place loads. This course is ideal for people who operate powered industrial trucks or those who manage them. |

| Update type | Course code | Course title | Industry | Course library | Version | Update details |
|-------------|-------------|---|--|----------------|---------|---|
| New | PS5-103604 | Powered Industrial Trucks Part 7: Loading Dock Operations (Canadian French) | Warehouse Safety;General Industry and Manufacturing | Safety Catalog | N/A | In loading dock areas, traffic, ramps, elevators and ledges increase the danger of powered industrial truck collisions, tip-overs and other incidents. Take this course to learn about the safe decisions truck operators can make to maintain loading dock area safety. This course is ideal for people who operate powered industrial trucks or those who manage them. |
| New | PS5-103632 | Walking/Working Surfaces (French) | Working from Home/Remote;Warehouse Safety;Slips, Trips and Falls;Ergonomics and Office Safety;General Safety and Manufacturing | Safety Catalog | N/A | Slips, trips and falls remain one of the most common causes of employee injury in the workplace. Understanding the actions you can take to prevent these incidents will help keep you and your co-workers safe and productive. This course provides a clear understanding of general guidelines for staying safe on walking and working surfaces. Ideal learners are all employees. |
| New | PS5-30130 | 12: Machine Guarding, Parts 1-2 (Canadian French) | Wind Turbine;Warehouse Safety;Electrical and LOTO;Tools;General Industry and Manufacturing | Safety Catalog | N/A | When people install, use and maintain machine guards properly, they can help prevent injuries such as crushed digits or amputations. Take this course to learn what machine guards are |

| Update type | Course code | Course title | Industry | Course library | Version | Update details |
|-------------|-------------|--|--|----------------|---------|--|
| | | | | | | and how to work with them safely. Ideal learners are workers who operate, maintain or work near machines. |
| New | PS5-30134 | 12: Machine Guarding, Parts 1-2 (German) | Wind Turbine;Warehouse Safety;Electrical and LOTO;Tools;General Industry and Manufacturing | Safety Catalog | N/A | When people install, use and maintain machine guards properly, they can help prevent injuries such as crushed digits or amputations. Take this course to learn what machine guards are and how to work with them safely. Ideal learners are workers who operate, maintain or work near machines. |
| New | PS5-30136 | Machine Guarding, Parts 1-2 (Portuguese) | Wind Turbine;Warehouse Safety;Electrical and LOTO;Tools;General Industry and Manufacturing | Safety Catalog | N/A | When people install, use and maintain machine guards properly, they can help prevent injuries such as crushed digits or amputations. Take this course to learn what machine guards are and how to work with them safely. Ideal learners are workers who operate, maintain or work near machines. |
| New | PS5-30137 | Lone Worker, Parts 1-2 | Construction;Driver and Transportation Safety;General Industry and Manufacturing;Hi-tech/Semiconductor Safety;Healthcare;Wind Turbine;Working from | Safety Catalog | N/A | When you are a lone worker who is away or isolated from others, you must take care to identify and prepare for the things that can go wrong. These courses will help you better understand the |

| Update type | Course code | Course title | Industry | Course library | Version | Update details |
|-------------|-------------|--|--|---|---------|--|
| | | | Home/Remote;Workplace Violence and Harassment;Health and Safety Management | | | health and safety risks associated with lone work so that you may better prepare for them. These courses are ideal for everyone who may perform or supervise someone who performs lone work. |
| New | PS5-30138 | Powered Industrial Trucks, Parts 1-7 (Canadian French) | Warehouse Safety;General Industry and Manufacturing | Safety Catalog | N/A | Using powered industrial trucks, such as forklifts, safely enables operators to lift, carry, stack, push or pull materials that are too large or cumbersome to move by hand. Whether you are an operator or someone who manages operators, this series of courses will help you understand some basic safety principles that will lay the foundation for hands-on training about the specific equipment and hazards at your workplace. |

March 2022 Course Updates

| Update type | Course code | Course title | Industry | Course library | Version | Update details |
|-------------|-------------|--|----------|----------------|---------|--|
| New | LAV15_M1 | Code of Business Conduct — Obeying the Law | n/a | n/a | 1.0 | This is the Micro Learning series of BIMO01. |
| New | LAV15_M2 | Code of Business Conduct — Conflicts of Interest | n/a | n/a | 1.0 | This is the Micro Learning series of LAV08. |

| Update type | Course code | Course title | Industry | Course library | Version | Update details |
|-------------|-------------|---|--|----------------|---------|--|
| New | LAV15_M3 | Code of Business Conduct — Gift Policies | N/A | N/A | 1.0 | This is the third of a five part micro version of LAV15. |
| New | LAV15_M4 | Code of Business Conduct — Protected Information | N/A | N/A | 1.0 | This is the fourth of a five part micro version of LAV15. |
| New | LAV15_M5 | Code of Business Conduct — Ethical Conduct | N/A | N/A | 1.0 | This is the fifth of a five part micro version of LAV15. |
| New | PS5-103272 | Field Service Cranes Part 2: Performing a Safe Lift | Construction | Safety Catalog | N/A | Once you establish a safe work area and plan a lift, it is time to perform the lift safely. Take this course to learn how. This course is ideal for field service crane operators and may be taken with other training and hands-on practice. |
| New | PS5-103304 | Field Service Cranes Part 1: Planning a Safe Lift | Construction | Safety Catalog | N/A | Safe crane operation begins before you ever reach the controls. Take this course to learn what you can do to establish a safe work area and plan a safe lift. This course is ideal for field service crane operators and may be taken with other training and hands-on practice. |
| New | PS5-103312 | Corrosive Safety | Chemicals, Substances and Hazard Communication | Safety Catalog | N/A | You may know that corrosive materials can be hazardous to your skin and eyes, but are |

| Update type | Course code | Course title | Industry | Course library | Version | Update details |
|-------------|-------------|-----------------------------|---|----------------|---------|---|
| | | | | | | you aware of their other hazards? Corrosives (acids and bases) are materials that can cause chemical damage on contact with the skin, eyes, respiratory tract, digestive tract or even metal. Many chemicals commonly used in laboratories and the home are corrosive. Besides their health hazards, corrosives can be highly reactive. They can cause fires, explosions, or violent exothermic (heat-releasing) reactions, like an explosion. Take this training to learn how to safely identify, use and store corrosive materials, as well as methods for preventing and responding to exposure incidents and emergencies. This training is beneficial for anyone who has the potential to use or be near the use of corrosives. |
| New | PS5-103371 | First Aid - Mental Wellness | Working from Home/Remote;First Aid, Health and Wellness | Safety Catalog | N/A | How would you describe your mental state? Do you ever feel that it impacts your work or personal life? Take this course to learn about the importance of improving your mental wellness and reducing your stress. It will also include topics on how to improve your mental health and well-being so that you can be happier and more productive at work and at home. This course is ideal for anyone feeling the pressure of your job or personal relationships. |
| New | PS5-103372 | First Aid - Stress | Working from Home/Remote;First Aid, Health and Wellness | Safety Catalog | N/A | Stress is a phenomenon that each one of us experiences. Even though stress is part of our everyday life, excessive stress can affect |

| Update type | Course code | Course title | Industry | Course library | Version | Update details |
|-------------|-------------|--|----------------------------------|----------------|---------|---|
| | | | | | | personal health and emotional stability. It can also affect our overall quality of life by reducing productivity or by creating or aggravating health problems. This course highlights types of stress and provides immediate and long-term ways to reduce stress. |
| New | PS5-103470 | Lockout/Tagout (LOTO) Programs and Procedures (Thai) | General Safety and Manufacturing | Safety Catalog | N/A | Energy powers equipment, but when it is uncontrolled it can harm or even kill people. That is why we have lockout/tagout procedures and energy control programs. Take this course to learn what these procedures and programs are and how we use them to stay safe at work. Your employer may ask you to complete this training as part of their process for obtaining lockout/tagout authorization. This course is ideal for workers in general industry and construction. |
| New | PS5-103472 | Lockout/Tagout (LOTO) Programs and Procedures (Portuguese) | General Safety and Manufacturing | Safety Catalog | N/A | Energy powers equipment, but when it is uncontrolled it can harm or even kill people. That is why we have lockout/tagout procedures and energy control programs. Take this course to learn what these procedures and programs are and how we use them to stay safe at work. Your employer may ask you to complete this training as part of their process for obtaining lockout/tagout authorization. This course is ideal for workers in general industry and construction. |

Your employer may ask you to complete this training as part of their process for obtaining lockout/tagout authorization. This course is ideal for workers in general industry and construction. |
| New | PS5-30127 | Field Service Cranes, Parts 1-2 | Construction | Safety Catalog | N/A | Safety is key when you operate a field service crane. In these courses, you will learn about actions you can take, such as remaining alert to the work you are performing as well as your surroundings, in order to reduce or eliminate potential hazards on the job. If you have already received training and had hands-on practice, these courses will refresh your memory. If you are new to operating a crane, please follow up with your supervisor to identify what additional training and practice you need before you may operate a crane. This course is ideal for field service crane operators. |
