

Textile Exchange Standards CERTIFICATION SERVICES SERVICE TERMS

These Service Terms govern Textile Exchange Standards Certification Services provided by the UL Contracting Party (as identified in the Quotation or Project Confirmation), utilizing its affiliate UL Verification Services Inc. (“UL VS”) a Textile Exchange Certification Body, (“we”, “our” or “us” as the context requires); and set out the responsibilities and obligations of the Client (“you” or “your” as the context requires). These Service Terms and the terms of the Global Services Agreement (“GSA”) are incorporated by reference into and are an integral part of each Service Agreement entered into by the Parties for Textile Exchange Standard Certification. The capitalized terms in these Service Terms which are not defined herein have the same meaning as in the GSA.

1.0 CERTIFICATION SERVICES

1.1 We will perform the auditing, evaluation, surveillance, inspection, and reporting services requested by you on your product and/or product category desired (“Product[s]”) in accordance with the then-current applicable Textile Exchange Standard and certification program requirements which can be found at <https://textileexchange.org/standards/> (the “Services”). Any Services performed by us on a Product(s) will be valid only for the specified identification of that Product(s). You will make all necessary arrangements for us to conduct the Services, including provisions for examining documentation and records, and access to the relevant equipment, location(s), area(s), personnel, and your subcontractors. If there is a need for translators or interpreters during the audits, they shall be independent of your organization.

1.2 You must complete an application form and determine which Textile Exchange Standard and certification program requirements (“Standard(s)”) you are seeking certification and which will be used for the Services. All forms, Standards and procedural documents referenced in these Service Terms are available to you at the Textile Exchange website <https://textileexchange.org/documents/>. Such documents may be amended from time to time at the sole discretion of the Textile Exchange, which changes shall become part of the requirement under this Service Agreement in the timeframe defined by the Textile Exchange.

1.3 Upon satisfactory completion of the Services and appropriate documentation, you will be issued a Scope Certificate and Product(s) identified in the Scope Certificate will be considered “Certified Products”. The Scope Certificate for a Certified Product is contingent on your continued compliance with Ongoing Evaluation as defined in these Service Terms and reporting obligations, and all other Textile Exchange requirements. When your Certified Product is shipped, you must request a transaction certificate with the shipment of your Certified Product. You can make reference to your certification solely in accordance with Textile Exchange’s Standards Claim Policy.

2.0 CERTIFICATION

2.1 Textile Exchange Requirements. You agree you are not currently engaged or will engage with another certification body to certify against the same Textile Exchange Standard(s) at the same time. You must immediately inform us about any other certifications and certification body relationships that share the same scope as the Textile Exchange Standard(s). You agree that we may give the Textile Exchange access to your data and facilities. You also agree to

adhere to the data policy specified in TE-501 Textile Exchange Standards Data Policy and to obtain the same agreement from all sites to be included in the scope of certification.

You acknowledge that it is Textile Exchange's right to change the Standard and certification requirements and that certification is conditional on conforming to a new or revised version of the applicable Standard and new or revised certification requirements within the timeframes established by Textile Exchange.

2.2 Evaluation. Your Services require a document review and on-site audit. During the evaluation, the audit time is calculated based on the Standard(s) requirements and in the on-site audit you may be issued non-conformities that must be resolved before certification is achieved. If you outsource to subcontractors and they are not certified to the Standard, they must also be subject to on-site audits. Audits must be performed no later than 60 days prior to the expiry of your Scope Certificate. After your Scope Certificate is issued, you must apply for a transaction certificate in order to accommodate shipping your Certified Product. We will perform a document review of all required documentation specified in CCS-102 Content Claim Certification Procedures as part of this transaction certificate. The transaction certificate is an additional deliverable and will be invoiced monthly as outlined in section 4.2.

2.3 Certification Term. Unless earlier terminated in accordance with these Service Terms, the term of the certification for the Certified Product(s) will begin on the Certification Date and expire one (1) year from the Certification Date ("Initial Term"). If you desire to maintain certification after expiration of the Initial Term, you must complete the ongoing evaluation defined in these Service Terms to maintain certification. The Parties agree to negotiate in good faith to enter into a new Service Agreement using the then current level Service Terms which may have changed during the Certification Term. If the Parties have not executed a new Service Agreement by the date of expiration of the Initial Term or agreed in writing to extend the Initial Term of this Service Agreement, the Service Agreement and all authorizations granted to you herein shall expire.

2.4 Assignment of Certification Date. We will notify you in writing of the date that the applicable Product(s) complies(y) with the Textile Exchange Standard(s) ("Certification Date") and the schedule of dates for Ongoing Evaluation, for each Certified Product. If you share any certification documents with third parties all such certification documents must be reproduced in their entirety and are provided by us without warranty of any kind.

2.5 Access to Facilities. You acknowledge and agree that our representatives, as well as any third-party observers accompanying the representatives, shall have free, immediate, safe, and secure access to facilities, factories and/or storage facilities where the Certified Product(s), or any components thereof, are fabricated, processed, finished, stored, and/or located, during normal business hours and/or when the factory or storage facilities are actually in operation. You shall make necessary arrangements for us and third-party observers to conduct the Services, including provisions for examining documentation, records and complaints, and access to the relevant equipment, location(s), area(s), personnel and your subcontractors. You agree to provide our representatives and third-party observers with all safety and other protections required by law for your own employees, including, without limitation, all U.S. Occupational Safety and Health Administration ("OSHA") rules and regulations. You shall not attempt to condition the right of our representatives or third-party observers to obtain free access to a factory and/or storage facility upon the signing of any agreement, waiver, or release which in any way purports to affect the legal rights or obligations of us or its representative. If any of our representatives signs such an agreement, waiver, or release, it shall be considered void and shall be of no force and effect. We shall, however, direct our representatives to exercise reasonable care to comply with any plant

safety regulations generally applicable to personnel at any such factory or storage facility.

2.6 Misuse of Certification Status. You will not use your product certification status in such a manner as to bring us or the Textile Exchange into disrepute. You will not make any statement regarding your product certification status that we or the Textile Exchange may consider misleading or unauthorized. You shall only make claims regarding certification consistent with the Scope Certificate and following the Textile Exchange's Standards Claims Policy.
